Generally, a man's glove size corresponds to his body size (Medium = Medium Gloves), where as a woman's glove size is often one size smaller than her body.

If this is the first time you've bought gloves, it is wise to measure your hand with a cloth tape measure. Please measure from the tip of the middle finger to the heel of the hand.

Please note the recommendations in this chart are only intended as a guide as the geometry of everybody's hands differ.
