Fork Offset	40	40
Crank	145	155
Stem	80	70
Bar	38	38

Height guide is approximate and rider confidence will affect fit and saddle height.

Rider needs 1" clearance when standing over the frame in normal footwear.

Meadowbank track bike needs a higher BB so the minimum height for this model will be 1-2" higher than the Cammo road bike.

The Cammo road bike has a higher front in relation to the saddle/pedals so is more suited to longer rides.
